If your visitation schedule does not conform to one of the above examples, you can always add up the number of hours of visitation per year and divide that number by 8760 (the total number of hours in a regular year). That will give you the visitation percentage based on your yearly visitation schedule.

Sometimes-Helpful Calendar Counts / Averages:

- 168 hours in a week
- 730.5 average hours in a month
- 8766 average hours in a year
- 365.25 average days per year (counting leap years – 366 days every 4 years)
- 30.44 average days in a month
- 52.18 average weeks in a year
- 4.35 average weeks in a month
